

FACULTAD DE MEDICINA

Concepcion, June 30, 1955.-

Dr.
Benjamin G. Horning, M.D.
W.K. Kellogg Foundation
Battle Creek, Michigan
U.S.A.

Dear Dr. Horning:

Dr. Repetto is just arrived. He is really very enthusiastic about his experience in New York and Minneapolis and willing to begin his actual work here as soon as possible.

In the name of our Faculty it is my pleasure to thank you once more for the opportunity the W.K. Kellogg Foundation gave Dr. Repetto and for the very fine experience he received in the United States.

Dr. Marcelino Varas just left for the States; he is going by boat. I am certain that you are going to be glad to have him as a fellow of the Foundation. He is a very able and studious a man.

The University of Concepcion Medical School is very thankful of the W.K. Kellogg Foundation for this renewed friendship and cooperation in the improvement of his teaching staff. Thanks to the help from the Foundation, the University has been able to improve the preparation and experience of his personnel and thus improve its teaching and complete its courses to the full career.

This year we are graduating our first group of young Fellows that have completed his Me

FACULTAD DE MEDICINA

dical Studies here. According to a recent disposition, they must go to Santiago only to pass his final examination, that is: the oposite yours fellows must pass under the states in order to practice.

The renewed cooperation of the W. K. Kellog Foundation in the preparation of our staff has been of paramount importance in allowing us to teach this long cherished goal.

With my best regards,

Sincerely yours,

Dr. Ignacio González G.
DEAN.
