Ignacio Gonzalez G., M.D., F.A.C.S.
Casilla 136
Concepcion, Chile

Dear Doctor Gonzalez:

Your letter of October 18 with the enclosed papers arrived. The one on "Chest Injuries in Civilian Practice" is being translated so we can have copies distributed in English at the meeting.

I am afraid we will not be able to have the one on a new procedure for the esophageal anastomosis translated. The program for the 12th and 13th seems to be quite crowded unless we have some cancellations.

It is possible that your second paper might fit into the program for Thoracic surgeons which is being arranged for the 14th. That program is being prepared by Doctor Carlos S. Peschiera and I am taking the liberty of sending him your paper and I suggest that you communicate with him directly about the possibility of including it in his part of the program.

I am looking forward to seeing you in Lima.

Sincerely yours,

H. P. Saunders, M.D., F.A.C.S.
Associate Director
