My dear Dr. Gonzalez:

The Executive Secretary of the American College of Hospital Administrators has conferred upon me the honor and privilege of conveying to you the greetings of the membership and the Board of Regents of the College and informing you that you have been elected to the rank of "Honorary Fellow" in the American College of Hospital Administrators.

The award will be made at the 1946 Convocation of the College, which is scheduled to be held in the city of Philadelphia, Pennsylvania, on Sunday, the 29th of September. The By-Laws of the College provide that such awards cannot be conferred in-absentia; therefore, I earnestly trust that your proposed trip to the United States this year can be arranged so that you may be present at the meetings of the College in Philadelphia.

Since I consider this award fully warranted, because of your outstanding and meritorious contributions to the field of hospital administration, it is a distinct honor to convey this message of the Board of Regents to you, and I wish to extend my most heartfelt congratulations on this recognition of your efforts, which in my opinion, personalizes the magnificent and efficient strides your country is making to provide modern hospital service to the people of America.

Most cordially,

  
Felix Lamela  
Executive Director
