

SERV. NAC. DE SALUD  
HOSPITAL REGIONAL DE CONCEPCION  
SERVICIO DE CIRUGIA  
JEFE: Dr. IGNACIO GONZALEZ G.

Concepción, December 6, 1955.

Dr.  
Benjamín G. Horning, M.D.  
W.K. Kellogg Foundation  
Battle Creek, Michigan  
U.S.A.

Dear Dr. Horning:

I suppose you are back from Mexico and Central America. Remember we are expecting you and Mr. Fahs here in March.

I am no more the Dean of my Faculty As you know our Deans are elected by the Faculty every two years. I have been reelected for 8 years and felt a little tired; so I begged my friends to leave me free for a while. Dr. Hermansen was elected; you know him. He is a good person and has a deep interest in the Faculty.

Unhappily I guess that even not been in charge, due to my former deanship and to my friendship with Dr. Hermansen I am going to be fully engaged in Faculty work in the present year.

Last October I met in Vifa del Mar Dr. Guy S. Hayes, from Mexico. He told me about a young mexican physiologist named Raul San Martin. As he was expecting to met you a few days later I sugested him to talk with you about him and that I would appreciate it if you let me know your opinion. As I have not news I guess that Dr. San Martin was already engaged or that he was not interested in coming.

We have not hear from Dr. Lloyd S. Beck.

We have made an offer to a spaniard who is actually in the Department of Biophysics in the University College in London since 9 years. He was

recommended to me by Dr. Francisco Grande, from Minneapolis. We have not his answer yet.

Dr. Darío Enríquez is enjoying his being again in Ann Arbor with his former boss Dr. Collier. I have a recent letter from him. He is very grateful with the Foundation for this most interesting opportunity. He gave me news about Dr. Varas who is very well acquainted with living in the United States and full of enthusiasm for his work.

Dr. Edgardo Enríquez is also exited with his experience in New Orleans. I have a recent letter from him. Mrs. Enríquez is now with him. As you know I have much hope in what Dr. Enríquez can do upon his return to improve and modernize the teaching of Anatomy in our Medical School.

Hope to hear from you very soon. As soon as I have any news from this Dr. Castillo from England I shall let you know. In the meantime I beg you to continue to be on the look-out for someone.

With kind regards from Mary and the children.

Sincerely yours,

Ignacio González G.
