

CONCEPCION, February 10, 1954.-

Dr. Benjamin G. Horning
Kellog Foundation
BATTLE CREEK, Michigan

Dear Dr. Horning:

I believe that when this letter reaches Battle Creek you are coming to South America.

It is a pity that you are not coming to Concepción.- If you are staying in Santiago, I am going to do my best to go there to greet you.- We expect with interest the visit of Dr. Kinde, whom I met in Colorado Springs and Battle Creek.- We hope to discuss with him about our future plans.- The date of his trip is all right.- Reservation is being made for him in the City Hotel.

I have not taken yet a decision about the choice of Anatomy or Biology for a fellowship this year.- We are going to think it over again and discuss it with Dr. Kinde.

I did not remember the plan you had for Dr. Hodgson.- Anyhow I fully agree with it.- Just today I have received a letter from Dr. Hodgson, in which he tells me about your offer of a travel fellowship.- Herewith I enclose a letter in which I state my approval of it.

We really hope that you are coming again this year to Concepción.- You know that yours is a very welcomed visit for us; furthermore we have every reason to expect that March is going to be a fine season to be here.

With best regards from Mary and the children
yours very truly,

Dr. Ignacio González G.
