Re: Exchange-Visitor Program No. P-370

Dr. Ignacio Gonzalez, Decano
Facultad de Medicina
Universidad de Concepcion
Concepcion, Chile, S.A.

Dear Dr. Gonzalez:

I am glad to inform you that the fellowship requested for Dr. Edgardo Enriquez by the University of Chile has been approved by the W. K. Kellogg Foundation. This fellowship is being awarded to enable Dr. Enriquez to have training in anatomy and orientation in medical education in the United States, to prepare him further for his responsibilities as Director of the Anatomy Institute. It is understood that the University of Concepcion will provide for Dr. Enriquez adequate facilities, including equipment, with which to work upon his return. It is further understood that the W. K. Kellogg Foundation assumes no obligation for providing such equipment or other facilities for the University of Concepcion, in connection with Dr. Enriquez' fellowship.

The fellowship will provide for Dr. Enriquez' travel expenses from his port of entry into the United States to New Orleans, Louisiana, and return to his port of departure, other authorized travel within the United States, tuition and other regular fees in connection with his program of study at Louisiana State University, essential textbooks and supplies, and a monthly stipend of \$175 to help cover his basic living expenses during the period of his fellowship. If Dr. Enriquez' wife joins him in the United States, his stipend will be increased to \$240 per month during the time that she is in this country.

Arrangements have been made with Louisiana State University for Dr. Enriquez' admission there for postgraduate study in anatomy and orientation in medical education, and his program of study will be under the supervision of Dr. Charles M. Goss, Professor of Anatomy. It is understood that Dr. Enriquez will report to Louisiana State University on September 6, 1955, and that his fellowship will be for a period of six months from that date. It is understood that, shortly before the end of his fellowship, Dr. Enriquez will submit to the Foundation an evaluation of his experience in the United States, professional and otherwise, and an outline of how he expects to apply knowledge acquired in this country to teaching or other activities in which he will be engaged upon his return to Chile.

Dr. Ignacio Gonzalez

August 9, 1955

The W. K. Kellogg Foundation is glad to cooperate with the University of Concepcion in providing this opportunity for a member of its medical faculty to secure postgraduate training in the United States. We are looking forward to having Dr. Enriquez as one of the Foundation's International Fellows during the coming year, and we shall endeavor to be of all possible assistance to him, in order that he may have a good educational and social experience in this country. If you should have suggestions in regard to the plans for Dr. Enriquez' program of study, or if you desire further information concerning the terms of his fellowship, please let me know.

With very best wishes, I am

Sincerely yours,

Philip E. Blackerby, Jr., D.D.S.

Re: Exchange-Visitor Program No. P-370

Dr. Edgardo Enriquez Frodden
Roosevelt Av. 1674
Concepcion, Chile, S.A.

Dear Dr. Enriquez:

I am glad to inform you that the fellowship requested for you by the University of Concepcion, to enable you to pursue postgraduate study in anatomy and to have orientation in medical education in the United States, has been approved by the W. K. Kellogg Foundation. The enclosed copy of my letter of this date to Dr. Ignacio Gonzalez describes the terms of your fellowship. I am also enclosing a letter of general information concerning your fellowship award, for use in securing your visa.

It is suggested that you plan to arrive in the United States a few days before September 6, in order that you may have some time for orientation in New Orleans before beginning your studies at Louisiana State University. The person to whom you should report in New Orleans is:

Dr. Charles M. Goss
Professor of Anatomy
School of Medicine
Louisiana State University
New Orleans 12, Louisiana

Your fellowship application indicates that you plan to bring your wife to the United States. In accordance with the terms of your fellowship, it is understood that you will leave her in Concepcion for at least the first two months, so that you may have an opportunity to complete your orientation and to secure suitable living accommodations in New Orleans before her arrival. It is also the policy of the Foundation that an International Fellow's wife must present a certificate from the U. S. Embassy to show that she has a basic knowledge of English, and she must submit a report of medical examination (form enclosed), before coming to this country.

The Foundation will be glad to provide a plane ticket for the portion of your trip from your port of entry into the United States to New Orleans, in advance of your departure from Concepcion, if you so request. If you prefer, we can arrange for your reimbursement for this portion of your travel expenses after your arrival in New Orleans. Please let me know what your preference is in this regard and indicate your port of entry. I suggest that you keep a record and receipts of your expenses from your port of entry to New Orleans and send them to this office immediately upon your arrival, so that we may arrange for your prompt reimbursement.

August 9, 1955

Should your port of entry be Miami, Florida, if you will write to the Department of State in that city, a representative from that office will provide any assistance you may request, upon your arrival there. The person to whom you should write in Miami if you desire this assistance is:

Mr. Walter M. Walters
Department of State
32¹/₂ Pan American Bank Building
150 S.E. Third Avenue
Miami, Florida

Will you please confirm your acceptance of this fellowship as soon as possible, so that we may proceed with final arrangements for its activation. You should also write directly to Dr. Goss to inform him of your plans. I shall look forward to seeing you as soon as possible after your arrival in this country, and in the meantime, if you have questions or if I may be of help to you in any way, please let me know.

With kindest regards, I am

Sincerely yours,

Philip E. Blackerby, Jr., D.D.S.

ASSOCIATE DIRECTOR

Dr. Ignacio Gonzalez, Dean
Facultad de Medicina
Universidad de Concepción
Casilla 44
Concepción, Chile, S. A.

Dear Dr. Gonzalez:

Thank you for your kind letter of August 8 concerning Dr. Edgardo Enriquez Frodden, Professor of Anatomy of the Faculty of Medicine of the University of Concepción, for whom the W. K. Kellogg Foundation has granted a fellowship in order that he may have six months of post-graduate experience in the United States. An official letter of award for him was mailed to you several days ago. I am glad to know that he will be able to report to Dr. Goss, in New Orleans, on September 6, 1955.

Louisiana State University School of Medicine was chosen as the center for Dr. Enriquez to begin his studies because (1) the Professor of Anatomy, Dr. Charles M. Goss, is one of our outstanding professors of anatomy, and he is thoroughly familiar with the teaching of anatomy in the Latin American countries and (2) a Foundation fellow in anatomy, Dr. Humberto Gomez, of Colombia, is spending his second year with Dr. Goss, and he will be able to assist Dr. Enriquez during his early period of orientation in the United States and especially while he is becoming more fluent in English.

I have taken the liberty of sending a copy of your letter concerning Dr. Enriquez to Dr. Goss. Both he, Dr. Blackerby and I have a good understanding of the type of experience that Dr. Enriquez desires. After he arrives in the United States Dr. Goss will discuss his program with him and they together will decide the other anatomical centers that Dr. Enriquez should visit after he has completed the initial experience with Dr. Goss.

Dr. Varas continues to enjoy life in the United States. I am delighted with the improvement that he is making in the use of the English language.

With kindest regards,

Sincerely,

Benjamin G. Horning, M.D.
